

BEYOND THE SYSTEM STANDARDS: TRANSITIONING FROM FOSTER CARE

APRIL 12, 2017

12:00PM

HUB 260

Over 400,000 children have been taken away from their families to be placed in a foster care system. What is foster care? Who are these children and why are they being taken away? Where do they live? Do they have a chance at a successful future? This session offers insight into the world of foster care and explores UCR's Guardian Scholars program.
